Manager Joe Kelley is unable to gain any definite information as to when he may get into the game again. His injury is mending but slowly.

Pitcher Willis has jumped the Altoona Club and has gone back to the Boston Nationals, President Soden, of Boston, having come to the pitcher's terms.

Mr. Dunn, who will own the Boston Club next year, is a veteran sporteman and will be remembered as one of John L. Sullivan's backers fifteen, years ago.

Pitcher Willis last week made bimself an outlaw by joining the Altoona Club. He says his aniary will be far more than \$3,000, and that he has it guaranteed.

With a little more experience Chase should make a Royal Arch bagman. He throws left-handed, but bats right-handed.

Joe Sugden has decided to catch the "spit ball" hereafter in a cuspidor, which will 'se sewed in the paim of his glove.

Endy McFarland thinks catchers should wear diving suits, if the "spit ball" is to be continued in Frank Smith's reportoire.

Lajole claims that Holy Cross once tried to corral him, and Donahue, the pitcher, says the same thing of Yale regarding himself.

On Detroit's opening day Manager Armour received a loving cup, and floral horsehoe labeled "Success" went to the players.

Fun Ahead.

If the Virginia association accepts to come to Asheville in July we would recommend that the Charlotte Observer and the Norfolk Landmark be given a place on the programme for a discussion of poets and poetry. It will be a good time for them to settle the controversy that has been going on for years between them, and the Observer would have a good eacuse for reproducing that thrilling poem by Miss Peterson: "I Seen Pa Coming Stepping High."—Raicigh Post.

Considerable of the selling also came from traders who had the "point" to buy Louisville and Nashville for several days, and many of whom had finally gotten in near the top.

Much interest was taken in the particular weakness of Tennessee Coal and Iron and American Locomotive, commonly referred to in the Street these days as "Hoadley stocks."—The former had declined four points and the latter nearly three by midday, with indications of urgent liquidation. Both had been very much "boomed," and the traders were generally expecting a break in them. The proposed developments in connection with both of them have not materialized in a way to suit the speculative class.

There was considerable selling of Sloss-Shefffied Steel and Iron stock, the price declining to eighty-six, a loss of about three points over last night's final figures.
